

MAN WITH A JAG

Takes Possession of a G. M. & M. Train, AND USES HIS UGLY REVOLVER

With Startling Effect on a Train Load of Fellow Passengers, and Winded Up in Jail.

HOLLY, Mich., June 11.—Samuel Johnson, an agent, whose home is in Boston, came from Milwaukee last night and took the Detroit & Milwaukee morning train for Detroit. He had a bottle of whisky with him and drank heavily. He was determined to remain on the platform, and Conductor O. C. Anderson ordered him to go in the car. This Johnson refused to do.

Anderson wired from Linden to Fenton for an officer to be ready to arrest Johnson. The officer came to Holly on the train, but by this time Johnson had taken possession of the baggage and baggage car, and with pointed revolver in his hand, and the car ordered everyone to vacate, and his order was obeyed.

When the train arrived here at 10:14 he left the car and ordered Conductor Anderson to start the train. This Anderson refused, whereupon Johnson dashed him and fired at him.

Fired at the Sheriff. He then went to the engine and ordered the engineer, Ben Odell, to start, and fired at him because he refused. He then chased people from the depot platform and ordered others not to move. Later he started for the outskirts of the town, followed by a large posse of men and boys. When approached by Deputy Sheriff Botsford he fired at him from a distance of six feet, missing him. Botsford then drew a gun and pulled the trigger. The weapon failed to go. Johnson was then knocked down by a stone, which struck him on the head, and was captured. He will be taken to Pontiac jail this afternoon.

The prisoner is an ugly and dangerous appearing man. It is believed that he was crazed with drink. The revolver used was an English building, 32 caliber. He emptied every chamber before being captured. Great excitement was caused, and those who witnessed the affair were terribly frightened.

RIOTING AT THE OSCOLELA.

Mine Captain Is Reported Killed by Strikers.

MARQUETTE, Mich., June 11.—A mine captain and another man are reported to have been killed yesterday in a riot of striking miners at the Oscolela mine. Four hundred men are out on a strike and more serious trouble is feared. In obedience to the governor's orders, the Marquette rifles are in readiness to report to the sheriff if any further disturbances follow. A strike is also imminent at the Calumet & Hecla.

Good Priest Dead.

DETROIT, June 11.—The Rev. Dominic Niederkorn, S. J., probably the oldest priest in Detroit, and the only one in the diocese of St. Peter and Paul's church who ever lived to celebrate the golden jubilee of his priesthood, died at the last call at 11 o'clock last night. Fr. Niederkorn was born May 15, 1815, in the Grand Duchy of Luxembourg. He was ordained priest in Namur, Belgium, August 29, 1841, by Bishop De Hesse, and served the church in his native land as regular priest until 1850, when he emigrated to the United States, coming to America and joining the Society of Jesus.

Michael in the Soup.

ANN ARBOR, Mich., June 11.—Judge Kinnis this morning denied a motion made by the attorney for Prince Michael, asking that the witness for the defense in the Bernice Bickel case be subpoenaed at the expense of Washington county. Assistant Prosecuting Attorney Springer appeared against the motion, and Thomas K. Kearney, of this city, for it.

Were Worth \$1,500.

ST. LOUIS, Mich., June 11.—Ella Ratter, 30 years old, secured a verdict of \$1,500 against William Collins, ex-sheriff, aged 55, for breach of promise to marry. The courtship occurred six years ago, and covered a period of about sixty days. The case will probably be appealed.

Will Inspect State Troops.

LANSING, Mich., June 11.—Capt. Frank D. Baldwin, Fifth United States Infantry, has been detailed to inspect state troops at the Island Lake encampment this year. He is a member of the staff of General Crook.

Internal Revenue.

During the first seventy-five years of our national existence there were collected from internal taxation about \$22,000,000. Of this \$22,000,000 went to pay the debts of the Revolutionary war; \$4,000,000 to defend ourselves against France at the close of the last century, and \$18,000,000 were required to defray the cost of the war of 1812.

From 1820 to 1847 only about \$300,000 were derived from internal revenue, and from 1847 to 1863 nothing whatever. Since 1863 the internal taxes have produced a revenue of over \$4,000,000,000. This means of revenue is no longer indispensable. Our tariff should be so adjusted as to do away for the most part with this form of taxation. We can arrange our customs duties so as to make foreigners pay a large share of our national revenue and so lighten the burden for our own people.

Something was done in this direction by the McKinley tariff.

To further reduce internal taxes would relieve the industries in which distilled spirits are used.

It would relieve the tobacco industry.

It would remove thousands of tax gatherers and decrease the national expenses by several millions.

It would be in accordance with our constitution and our American policy.

It is the policy of the Republican party.

It is advocated by all friends of the temperance cause.

The Republican national platform of 1880 said: "We favor the entire repeal of internal taxes rather than the surrender of any part of our protective system at the joint behest of the whisky trusts and the agents of foreign manufacturers."

From resolutions of the Union League

club of New York. "We advocate the repeal of the internal revenue department on the subject and wisest means of reducing the surplus and preserving unimpaired the great principle of protection to American industry."

From resolutions of the Union League club of Philadelphia: "The United States internal revenue system of taxation should be repealed by congress, and we call on that body to take the necessary steps to bring this about as early a day as possible."—American Economist.

Richards' Triple Shows.

It is with pleasure that the HERALD is able to announce the arrival of Richards' Triple shows in this city and that the exhibition will open Monday evening at Walter's lot, corner of Lyon and Ottawa streets. This exhibition is a thoroughly refined and first-class circus performance. It has been played to overcrowded audiences in the principal towns of this state and has frequently been obliged to turn people away at the door. The circus will be open every night this week with matinees every day but Monday. The exhibition is especially well designed for the entertainment of families and children and will afford lovers of fine acrobatic exhibitions a rare treat.

Appreciable Improvements.

The Western Beef company, with commendable consideration for the comfort and convenience of its patrons, has greatly improved the interior aspect of its place of business during the last week. It has placed several large fans in operation for the purpose of maintaining a cool atmosphere, and the result is a delightful and refreshing breeze pervades the place. The business of the firm is constantly improving, and it is rapidly absorbing the entire meat trade of Cass street.

MANAGER W. SWETLAND.
An Accomplished Caterer—An Affable
Gentleman—Manager of a Delightful
Resort.
Much has been written and much
has been said about the delights of
Reed's Lake and its exquisite environ-
ment. It is, indeed, a gem in the
vast panorama of nature's tranquil,
restful scenery. It possesses the
graceful sloping banks, the bordering
forest, and the deep blue coloring that
charm the beholder. In the midst of
its environment nestles the lake—a
radiant gem. But Reed's Lake, unac-
companied by the magnificent pavilion
which adorns its banks and blends har-
mony of art with nature's handiwork.
The pavilion is a masterpiece of archi-
tecture. And both were in-
complete were it not for the manage-
ment in the hands of Warren Swet-
land, which has made both the
haven of rest for the weary and the
bower of delight for the pleasure
seeker. Great advancement has been
made during the present year in the
proper and necessary equipment of the
grounds and buildings. The grounds
have been fenced in to provide quiet
and undisturbed retreats for picnic
parties and for family gatherings in-
nearly the trees. The railway facilities
are superior to any that have been ob-
tained heretofore, being such as to
handle trains at the gate
every two minutes. The grass
plots and flower gardens have
been snipped from the intrusion of
the throng of visitors by stout fences
and ample ways. The pavilion has
been transformed into a veritable
bower of beauty, and offers rest and
refreshment to the weary and ex-
hausted, as well as delightful enter-
tainment to all visitors. The banquet
hall above, alike with the booths be-
low, are resplendent with gay bunting
and airy decoration. In front of the
pavilion one of the finest orchestral
companies of the state discourses sweet
music from 2 to 10 p. m. every day.
Albert H. Morehead is sole agent for
the "Steck" piano.
